SUMMARY

Motivated Computer Science undergraduate with hands-on experience in web development, software development, and database-driven applications. Skilled with experience developing responsive web interfaces and backend functionality through academic and group projects. Strong understanding of problem-solving, UI/UX principles, and software development practices, with a keen interest in building reliable and user-friendly web applications.

PROJECTS

SaveMeNet – Final Year Project (Python, PyQt)

Semester of 2026

- Developed a local system to detect and anonymize personally identifiable information (PII) in documents before online submission
- Implemented NLP and pattern recognition to identify sensitive data and replace it with realistic anonymized content

VocaRise – Mobile Application (React Native, Python)

Semester of 2025

- Developed frontend components using React Native, improving user interaction and responsiveness
- Integrated backend APIs and handled data flow between frontend and Python backend
- Collaborated using Git for version control and team-based development

OceanLens UI/UX Prototype

Semester of 2025

- Designed low-fidelity and high-fidelity prototypes using Figma
- Focused on usability, user-centered design, and interface consistency
- Applied HCI principles to improve user experience

Cybersecurity Coursework – Vulnerability Assessment

Semester of 2026

- Performed system reconnaissance, scanning, and vulnerability assessment using industry-standard tools
- Identified and tested common web application vulnerabilities, including SQL Injection and Cross-Site Scripting (XSS).
- Analyzed security risks and proposed mitigation strategies to improve system security

Beyond Roots – Group Project (HTML, CSS, JavaScript)

Semester of 2024

- Collaborated in a team to design and develop a responsive personal website
- Implemented front-end features using HTML, CSS, and JavaScript
- Focused on layout design, responsiveness, and user experience

EDUCATION

Bachelor of Science in Computer Science

Jan 2024 – OCT 2026

Informatics Institute of Technology

- Affiliated with University of Westminster, London
- Major in Computer Science.

Foundation in Computing

Jan 2014 – Dec 2017

Gateway Kids School of Computing

School Education

Jan 2009 – Dec 2023

Musaeus College

- Advance Level Examination
- Ordinary Level Examination

SOFT SKILLS

- Communication
- Creativity
- Teamwork
- Problem-Solving
- Adaptability
- Time Management

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript, PHP
- **Web Development:** HTML5, CSS3, AJAX
- **Mobile Development:** React Native
- **Databases:** MySQL, MongoDB
- **Frameworks & Libraries:** PyQt, Flask
- **Tools:** Git, Figma, GitHub
- **Cybersecurity:** Nmap, Metasploit, Wireshark, Vulnerability Assessment
- **Concepts:** UI/UX Design, HCI, OCR, NLP

LANGUAGE SKILLS

- **English** – Professional working proficiency
- **Sinhala** – Fluent

PERSONAL INTRESTS

- Reading and writing fictional novels that are aligned with mystery and thriller genres, video editing, UI designing, solving mind games and socializing with friends and family.
